TWO MEN AND A DOG.

Figure in Suit Filed in the District Court by C. Crane.

Charles Crane today filed his answer to the complaint filed against him in the district court by M. Isenberg, who asked judgment for damages because of an alleged assault made upon him by Mr. Crane. Isenberg, in his com-plaint, alleged that he called at Crane's residence on east South Temple street to purchase junk and that Crane set the dogs on him and they severely bit him. The next day when he called again to ascertain the number of the house, he alleges that Crane assaulted him and knocked him unconscious and the dogs again bit him.

Mr. Crane denies the allegations made by Isenberg and sets out in his answer that Isenberg entered upon his premises and approached Mrs. Crane in a threatening manner, and threatened to assault her. Mr. Crane then ordered him off the place, but he refused to go, hence it was necessary to use sufficient force to eject him and prevent him from committing said threatened assault. The efforts of Mr. Crane in ejecting Isenberg constitute the grievance set forth in the complaint. The defendant prays that the case be dismissed, and that he have his costs.

ALLEGED ROBBERS ARRESTED HERE

Two Colored Persons in Jail at Request of Chicago Authorities.

THEFT OF NEARLY \$10,000.

Robbery Occurred at Portland And Victim Was a Wealthy Man From Windy City.

After the Crime Officers Followed the Guilty Parties for a Distance Of Over 5,000 Miles.

Chicago, Sept. 27 .- The arrest today of Clara Adams, an actress, and Harry Morgan, at Salt Lake City, will solve the mystery connected with the alleged theft of nearly \$10,000 from Anton Fritz, a butcher, at Portland, Or., and of an alleged plot to murder Morgan in a hotel in Chicago, according to local police officials who were notified of the arrest. Fritz was a native of western Pennsylvania and before he started out to see the world, owned a butcher shop. He sold the shop for \$10,000 and, t is claimed, placed the money, all in bills of large dimensions, in a wallet and stared for the west. He had been in Portland several days and was sight-seeing when he met Miss Adams. She told him she was a stranger in the city and was in need of money. Fritz claims he befriended the woman and secured her a place at a hotel. He says he also stayed at the same hotel. The following morning he reported to the police that he had been robbed of over \$3,000. In the meantime the woman had disappeared. The description of the woman as given The description of the woman as given by Fritz was recognized by the police as that of one who was known under the name of the "Candy Kid." Harry Morgan, an intimate friend of the woman, had also disappeared. The police learned that Morgan and the woman had gone to Tacoma. From there the couple were tracked to Spokane, thence to St. Paul and finally to Chicago. At each place it was learned that Morgan each place it was learned that Morgan and the woman had been living in great luxury.

The conspiracy to kill Morgan probably would have been successful, cording to the police, but for the weak-ening of one of the plotters, a negro, who went to Morgan and made a full

At. 9:30 last evening Detectives Chase Burt and Raleigh arrested Harry Mor-gan and a woman who gave the name of Leora Morgan, both colored. They answered the description given in the telegram from Chicago and there can be no doubt that they are the ones wanted by the Portland police. They

The police here are satisfied that they have the right persons under ar-rest. Chief Sheets says, however, that he is absolutely in the dark as to the facts in the case. He has wired the authorities of Portland for information, in fact has asked for a full and complete statement of the case. He notified the Chicago officials of the arrest here last evening of the Morgans and the Chicago officers at once wired to hold the prisoners at all costs, In-teresting developments are expected this evening. Up to a late hour this afternoon nothing had been heard from Portland, and Chief Sheets stated to the "News" that he was unable to give any information whatever, for reason that he knew nothing about the case beyond what the brief

dispatch stated. As to Clara Adams, the actress, the police here know nothing whatever. It may be that the woman with Morgan who says she is Leora Morgan, went by the name of Adams in Chi-cago, Portland and San Francisco. It is a fact, however, that she is colored and it is not believed that she is an

IS THE BEST TOO GODD FOR REPUBLICANS **GETTING BUSY**

Judge Clesson S. Kinney Becomes Candidate for the Upper House.

POLITICIANS AT LUNCHEON.

Resentment Among Americans Who Dislike Being Forced Into Swallowing Kearns Without Salt.

That the Republican party intends to make an immediate and aggressive fight was much in evidence this morning. The party leaders were in council at the state headquarters, and work was being laid out for campaigners all

Senator Reed Smoot arrived in the city this morning, and was met at the depot by James H. Anderson and Malcolm McAllister, manager of the Republican official organ. At noon State Chairman Salisbury went to lunch with former State Chairman Spry and E. H. Callister. The lunch developed an amusing incident of the political seas. Just before the party arrived at the Vienna cafe, Frank J. Cannon came in and took a seat in the rear dining room. As the other lunchers began to wonder whether he would have his fried, fricaseed, or boiled and served on toast, the second party reached the rear dining room and after looking around, about faced for the street again. It was evidently meant for a iuncheon of mutual confidences and there was no desire to carry aid and comfort to the enemy at the next table,

even inferentially. Secretary Squires stated at headquarters this afternoon, that Senator Smoot had not yet called at the state offices, but that he expected him to call during the afternoon. He had one item to give out. It was that Clesson S. Kinney, who last year was a member of the lower house, is a candidate for election to the State senate, taking one of the places made vacant by the expiration of the terms of Senator Williams and Senator Bamberger. As Williams is also a candidate for the nomination, it is possible that he and Kinney will be named by the Republicans. Their American party opponents are Saloonkeeper Cahoon of Murray and Garfield, and Mormon eater Sanford of Sait Lake. The Democratic nominees are as yet untalked of, except informally. Senator Bamberger is being urged to run again and there are a umber of likely men for the other

A large banner bearing the words Democratic headquarters" was today flung out from the third story windows of the Atlas block, reaching across the eye Democratic delegate he steps of the Rio Grande train at the bottom of the street. The American party banner already reaches from the poles to the front door of the Cullen across the street, and the Republi-can banner crosses the sidewalk in front of the Atlas block.

Secretary Armstrong of the American party county committee was busy to-day preparing instuctions to county workers, and incidentally sending the workers on their way. He has prepared a typewritten document for them of several pages in length telling them just what kind of information is want-

It is surprising how deep the resentment is among American party leaders to the black hand of Thomas Kearns when it is seen over party affairs. Ben B. Heywood declares with great earnestness the movement is not meant to drag affiliation back to the camp of Kearns, and senatorial candidate San-ford denies that he is in any way pledged, while Rodeback of the gentile misinformation bureau also arises in meeting to say that he is not pulling for Thomas.

THE LATEST THING IN LOCOMOTIVES.

The locomotive here shown was exhibited recently at the Lands and industrial exposition at Nuremberg, Germany. It differs from the ordinary rallroad locomotive in several particulars. It is provided with a curious pointed boiler, to offer less resistance to the air. The driving wheels are nearly seven feet in diameter. It is believed by German railroad engineers that this is the locomotive of the future. It is capable of attaining a speed of ninety miles an
